OUSSAMA RADOUANE

Software Engineer

Available from July 2026 for permanent/fixed-term roles

Software Engineer with 3 years of experience in backend development and DevOps. Currently looking for a permanent or fixed-term role. Passionate about software development, I am eager to contribute my skills to demanding technical projects.

EXPERIENCE

Software Engineer – JoyatWork — Oct. 2025 – Jan. 2026

- Developed a REST API in Laravel with JWT authentication and user role management.
- Designed the MySQL database schema and integrated a React frontend with asynchronous API calls.
- Automated a CI/CD pipeline with GitHub Actions, reducing deployment errors.

Software Engineer – Articode — Oct. 2023 – Aug. 2025

- Developed REST microservices to improve scalability.
- Implemented structured JSON logging and error handling to simplify incident diagnosis.
- Created Terraform scripts for automated Kubernetes infrastructure provisioning.
- Set up monitoring with Prometheus and Grafana, including dashboards and alerts for incident detection.
- Integrated SonarQube into GitLab for code quality analysis.

AR Engineer – Articode — Jun. 2023 – Oct. 2023

- Developed an AR web application (WebGL), managed a team of 4 interns, and produced technical documentation.

Software Engineer – Zakoura Education — Jul. 2022 – Oct. 2022

- Reviewed and developed .NET REST APIs, wrote SQL queries, and provided technical support to the internal team.

PROJECT

EcoTrack

Smart IoT waste management platform designed for citizens and field agents.
Tech: React, NestJS, Drizzle ORM, PostgreSQL, Kubernetes, MQTT, Kafka.

PhotoSharingApplication

Web application for sharing and browsing nature gallery.
Tech: C#, ASP.NET Core, React, Entity Framework, SQL Server.

BankBackEnd

Micro service that allows you to manage bank accounts.
Tech: Java 11, Spring Boot, Spring Data JPA, Spring Data REST, MySQL, Maven, Lombok.

EDUCATION

Master's in Architecture and Software Development
Sept. 2025 – Jul. 2026
Ingetis – Paris, Île-de-France, France

Master's in Computer Engineering and Networks (MIAGE)
Sept. 2018 – Jul. 2023
EMSI – Casablanca, Morocco

TECHNICAL SKILLS

Languages

JavaScript/TypeScript, Python, C#, Java, PHP, SQL

Backend & API

React, Tanstack, NestJS, Node.js/Express, Django, Laravel, Symfony, .NET Core, Spring boot, Spring Data, Hibernate, REST APIs, OpenAPI/Swagger

Databases

PostgreSQL, MySQL, MongoDB, Redis, Oracle, Drizzle ORM, Prisma ORM

DevOps & Infrastructure

Docker, Kubernetes, Terraform, Ansible, Linux, Bash, GitHub Actions, GitLab, Jenkins, Azure

Observability & Quality

Prometheus, Grafana, ELK, SonarQube, Kafka, RMQ, Playwright, Cypress, PHPUnit, Vitest, Jest

Architecture & Security

Microservices, monolithe, MVC, Clean/Hexagonal, DDD, TDD, OWASP, OIDC, IAM, OAuth, RBAC

LANGUAGES

French	: Fluent
English	: Fluent
Arabic	: Native

STRENGTHS

- Rigorous & Autonomous
- Strong team spirit
- Curious & Adaptable

CERTIFICATIONS

- Honoris 21st Century Skills Certificate
- AI Fluency: Frameworks & Foundations
- Claude with Google Cloud's Vertex AI
- Claude with Amazon Bedrock
