Profile

Master's student in Software Architecture and Application Development at INGETIS Paris, seeking a full-time Software Engineering role from July 2026.

Professional Experience

Software Engineer | JoyAtWork

Backend Engineering | Oct 2025 - Jan 2026

-Built Laravel/PHP APIs, validation rules, middleware, service logic, and MySQL migrations for production booking and onboarding workflows.
-Implemented secure token-based authentication and role-based access control (RBAC) using Laravel Sanctum for account management workflows.
-Designed structured backend architecture aligned with business requirements, enforcing clear validation, safe releases, and reduced regressions.
-Optimized key endpoints with caching and query improvements, reducing response time by 30% and improving overall site reliability.
-Automated delivery pipeline using GitHub Actions, enforcing CI checks and release practices that reduced manual work.

Software Engineer | Articode

Backend, Cloud & Platform Engineering | Nov 2023 - Aug 2025

-Built Node.js/Express microservices and implemented PostgreSQL features for internal platforms and consulting applications.
-Designed validation, structured JSON logs, and error handling to make failures easier to diagnose.
-Standardized Docker deployments and used Terraform to provision infrastructure resources across development, test and demo environments.
-Added Prometheus/Grafana dashboards, ELK logging, automated tests, and SonarQube quality gates to improve observability and code quality.
-Improved onboarding with reproducible setup paths and more consistent runtime configuration.

AR Engineer | R&D / Web Engineering | Jun 2023 - Oct 2023

-Helped deliver a WebGL-based AR web application, documented implementation choices, and coordinated execution across a four-intern team.
-Worked in a shared review and iteration workflow, which improved teamwork, handoff clarity, and delivery pace.

IT Support Engineer / Junior Developer | Fondation Zakoura Education

Information Systems | Jul 2022 - Oct 2022

-Provided day-to-day technical support across internal systems, reducing resolution time and improving team productivity.
-Developed SQL queries and contributed to .NET API endpoints to streamline education workflows and simplify internal data access.

Technical Skills

Languages: TypeScript/JavaScript, Python, C#, Java, PHP, SQL
Backend & APIs: NestJS, Node.js/Express, Laravel, ASP.NET, REST APIs, OpenAPI/Swagger, JWT/OAuth
Data & Storage: PostgreSQL, MySQL, SQL Server, Drizzle ORM, schema design, migrations, query tuning
DevOps & Infrastructure: Docker, Terraform, Linux, Bash, PowerShell, GitHub Actions, GitLab CI, Jenkins
Observability & Quality: Prometheus, Grafana, ELK, SonarQube, unit/integration/E2E testing, Playwright, PHPUnit, Vitest, Jest
Architecture & Security: modular monoliths, microservices, monorepos, Clean/Hexagonal Architecture, DDD, TDD, OWASP

Projects

EcoTrack | smart urban waste management platform

GitHub: github.com/Oussamaredd/EcoTrack | Live demo: ecotrack-jmj.pages.dev

-Designed a monorepo with React, NestJS, Drizzle/PostgreSQL, and Docker-based infrastructure for citizens, field agents, and managers.
-Implemented JWT/Google OAuth, telemetry ingestion, route planning, manager KPIs, live updates, and PDF/CSV export pipelines.

Partage et Vie Equipment Reservation | Symfony + Vue reservation system

GitHub: github.com/Oussamaredd/partage-et-vie-equipment-reservation

-Built clear API, database, frontend, and infrastructure layers with Docker and automated PHPUnit, Vitest, and Playwright tests.

Algoan Playwright | End-to-end bank transaction flow automation

GitHub: github.com/Oussamaredd/algoan-playwright

-Automated consent and bank-selection flows with Playwright, CI execution, and failure artifacts for faster debugging.

Education

-Master's Degree, Software Architecture and Application Development | INGETIS, Paris, France | September 2025 – July 2026
-Master's Degree, Computer Science and Networks (MIAGE) | EMSI, Casablanca, Morocco | Graduated 2023

Languages

Arabic (Native) | French (Fluent) | English (Fluent)

Certifications

-Honoris 21st Century Skills Certificate
-AI Fluency: Frameworks & Foundations
-Claude Code in Action
-Building with the Claude API
